

Material Safety Data Sheet

* 1 - Preparation and company identification

Identification of the preparation PAO OIL ISO 68 + UV DYE 1L

11.044

Preparation use Lubricant for refrigeration and air conditioning systems. Company ELKE S.r.I. Via XXV Aprile 202 10042 Nichelino (To) Italia.

Tel. n. +39 011 9622412

Emergency telephone

Centro Antiveleni Ospedale Niguarda Milano +39 02.66101029

Business references

* 2 - Hazards identification

Not dangerous good.

Hazards The substance is not regarded as hazardous according to the Directive

1272/2008/EEC.

Main risks to

No particular risks in normal working conditions, vve recommend, nowever, to keep

health/environment

normal personal hygiene and to avoid frequent and prolonged contact. Use

according to good working practice avoiding to disperse the product in the

environment.

This product does not contain any PBT or vPvB substances. Other hazards

* 3 - Composition / Information on ingredients

Ingredients composition

No. 1272/2008/CE

Poly alpha olefin No. EU: 500-183-1

<=100.00% No. CAS: 68037-01-4

Please refer to section 16 for more information about H phrases.

Components information

The content of DMSO extract, determined with the IP 346/92 method is lower than

3% in weight.

Chemical composition Synthetic base oils.

4 - First aid measures

Inhalation In case of exposure to high concentration of vapours or fogs move the person from

contaminated area to well ventilated place. Seek medical assistance if necessary. If

you suspect inhalation, urgently go to hospital.

Remove contaminated clothes and wash with soap and plenty of water. If irritation Contact with the skin

persist, get medical attention.

Immediately flush eyes with plenty of water for a few minutes while keeping eyelids Contact with the eyes

open. Get medical attention.

Do not induce vomit to avoid aspiration through the respiratory tract. Get medical Ingestion

attention.

Scheda di sicurezza PAO OIL ISO 68 + UV ELKE S.r.I. VIA XXV APRILE 202 10042 NICHELINO (TO) ITALIA REA di TO: 987683 P.Iva 08613670010

Material Safety Data Sheet

5 - Fire-fighting measures

Fire-fighting equipment Extinguish flames with foam, dry chemicals, CO2.

Inappropriate extinguishers Do not use direct water jets. Use water jets just to cool down surfaces exposed to

fire.

Specific dangers in case of exposition to the chemicals, its combustion products or gases

Avoid breathing combustion fumes that, in case of fire, can form carbon monoxide fuel gases, early dioxide and unburnt hydrocarbon fumes.

fuel gases, carbon dioxide and unburnt hydrocarbon fumes.

Specific protective equipment Wear protective overalls with self-breathing equipment. for fire-fighting personnel

6 - Accidental release measures

Person - related safety

precautions

Wear gloves and protective glasses. In case of spillage of considerable quantities into bordering place, avoid to breathe exhalations; air the environment or wear

protective breathing apparatus. Remove any possible ignition sources.

Environmental precautions. Avoid to disperse and to drain the product on ground, into sewers and surface

waters. If necessary inform the relevant local authorities.

Decontamination procedures In case of significant amount of spilled product, control and transfer the product in

suitable containers. Spillage on ground: Control spilled product with earth or sand. Clean up spilled product and dispose according to local regulations. Spillage in water: Border immediately the spillage. Remove spilled product from the surface with

mechanical equipment.

7 - Handling and storage

Handling Avoid direct contacts with the product. Do not breathe aerosol or product mist

guaranteeing a suitable ventilation in working areas. Do not smoke and avoid any

contact with ignition sources. Keep containers closed when not used.

Storage Keep the product in original containers. Storage in a fresh place, away from heating

sources and direct sun exposition. Avoid to accumulate electrostatic charge. Keep closed and covered the containers to avoid infiltrations of rain. Maintain suitable

ventilation of the work place.

way according to the local regulations.

8 - Exposure controls / personal protection

Exposure borderline values

Poly alpha olefin

(1) Long exposure limits

(2) Short exposure limits

Material Safety Data Sheet

Exposure control Avoid the formation of hazes or aerosol and use engineering controls, ventilation or

localized aspiration if necessary.

Breathing equipment Not necessary under normal working conditions. Keep oil hazes within the TLV-TWA

limit of 5 mg/m3. (A.C.G.I.H. 2000). Use masks with filters for organic vapours in

case of exposure superior to the fixed limits.

Hands and skin protection Wear gloves and protective overalls; change immediately contaminated clothes and

wash them thoroughly before use. We recommend to keep normal personal hygiene and of working clothes. Wear gloves only after having thoroughly washed your

hands.

Eyes protection Wear safety protective glasses where it is possible to be in contact with the product.

9 - Physical and chemical properties

Physical status-: Liquid Colour-: Green Odour-: Typical pH: Not applicable Water Solubilityinsolub Density at 15°Ckg/l: 0.840 Kinematic Viscosity at 40°CcSt: 69 Flash Point (C.O.C.)°C: >240 Pour Point°C:

10 - Stability and reactivity

Reactivity Avoid contacts with strong acid, strong bases and oxidation agents. Avoid extreme

heat and high energy sources of ignition.

<-45

Stability Stable product in normal applications.

11 - Toxicological information

Chronic toxicity Exposure to oil vapour that exceeds Professional Inhalation Limits can cause

respiratory system irritations.

Skin contact LD50 skin (rabbit) > 2000 mg/kg (estimated). Frequent and continuous contacts

could degrease skin and cause dermatitis.

Eyes contact It can cause light irritation.

Oral toxicity LD50 (rats): > 2000 mg/kg (estimated). The product if ingested can irritate the

digestive apparatus and induce vomiting, cause nausea and diarrhea.

Inhalation Long term exposure to the product mist can cause irritation to the respiratory system.

12 - Ecological information

Mobility The product keeps afloat.

Degradability Not determined.

Accumulation Not determined.

Ecotoxicity In compliance with EEC Regulations the product is not regarded as hazardous to the

environment.

13 - Disposal considerations

General information Do not dispel the environment. Comply with the current laws.

Disposal Avoid to disperse the product on ground, into sewers and surface waters. Discharge

the exhausted products and the containers through the authorized industries in compliance with the state and local regulations for disposal of this type of waste.
